SHARE
LEAD ARCHITECTS AND CONTRACTORS

**SHARE is where the architecture
community comes together to share
ideas and inspiration, learn and
celebrate excellence in architecture.**

*We invite you to join our
SHARE community and attend
SHARE events that reunite lead
architects and contractors!*

SHARE events bring together principals and senior architects from leading practices to discuss and gain inspiration from each other. The conferences offer the opportunity to meet great minds in the global architectural community through our talks program.

The lectures are concentrated on present and future, innovation in architecture and engineering, on explorations on new materials and technologies for designing a smart and sustainable built environment.

Large-scale projects are presented from different perspectives by architects and contractors.

For 20 years we have been in pursuit of excellence in the fields of architecture and construction, through this international events organized for architects and contractors, in cooperation with our partners, the national chambers of architects, architecture and construction institutions and associations.

Also, we have initiated recently the Romanian Building Awards to celebrate a fundamental component of our lives, the built environment. The experience of leaders of the profession and projects that have a significant social, cultural and economic impact are rewarded excellence.

Bringing together hundreds of practicing architects and contractors in Europe, Asia and the United States of America, SHARE events promote projects, achievements and recent best practice examples in architecture and construction industry.

SHARE act as an effective platform for networking, business, inspiration and exchange of ideas and transfer of know-how.

COST-EFFECTIVE

A uniform all-in concept of exhibiting ensures that costs are kept to a minimum.

TIME - EFFICIENT

SHARE is a time-efficient event where you get to meet an exclusive audience over a period of just two days.

INNOVATION

Visionary architects and companies present some of the world's best buildings, innovative materials, revolutionary technologies and systems.

KEY SUCCESS FACTORS

EXCLUSIVE

Architects, interior designers, engineers and other specifiers will be invited through a customised and exclusive registration system. All participants will be offered the exclusive opportunity to engage in pre-arranged, private business meetings with selected organisations of their choice.

EXPERTISE

Representatives on the stand have got extensive technical knowledge and are able to provide visitors with the ideal solution for their specific case.

INFORMATION

SHARE FORUM acts as an effective platform for inspiration and exchange of ideas and transfer of know-how. The conferences offer the opportunity to meet great minds in the global architectural community through our talks program.

SHARE INTERNATIONAL ARCHITECTURE AND ENGINEERING FORUM

2017, March 20 - 21, Bucharest
JW Marriott Grand Hotel

GIS - INGLASS - LAUD - CONTRACTOR

Manufacturers, importers or national distributors of:

Glass architecture and engineering

Building systems:

Fixed lighting, sanitary ware, heating, air conditioning, electricity and controls, plumbing, renewable energy

Interior finishing:

Interior layout/design, interior joinery, floor coverings, wall coverings, partition walls and ceilings, paints and adhesives, door fittings

Landscape and infrastructure architecture and engineering

Services, IT & Media

Organisations and trade associations

SHARE is about excellence in interior architecture, landscape and urban infrastructure, glass architecture and engineering and about the latest innovative building materials and technologies.

SHARE acts as a platform where architects and engineering companies are sharing all their knowledge.

Also, the event gives industry professionals a unique opportunity to network and engage in niche education program based on the industry showcase that helps them keep up to date on trends and all issues in building systems.

Arch. Tachapol Danaboonchai
Kypothesis Design Agency, Thailand, Keynote
Speaker GIS Bucharest 2016 edition,
Winner INSIDE World Festival of Interiors –
Bars & Restaurants

I think GIS Bucharest event was very nice, I really like when many disciplines come together, that architects and contractors meet, this allows to widen our perspective on how we see things.

Markus PLETTAU
Regional Market leader, High Performance
Building Solutions at Dow Corning, Speaker
and Partner

I am positively surprised to see that there are so many architects, that there are engineering companies as well, sharing all their knowledge. It is good to see the other side because we are coming from the industry and we have had an inside-out look from time to time in this kind of events. It is a really nice event, a lot of interest is generated through all these presentations. I am excited to see there is so much interest in the innovations we have presented today.

Eng. Veronica Sterian
Managing Coordinator of the Technical
Department for Refrigeration Design, DAAS
International Group, Romania

We would like to thank you for the invitation and for the support during the organization of the GIS & CONTRACTOR events. Not only I enjoyed the organization of the event, but also the guests and the topics discussed. As an experienced engineer in the domain of heating and refrigeration, I participated at CONTRACTOR conferences.

TESTIMONIALS

arch. Vladimir Mindru
Founder of YELLOW OFFICE, Romania

It was a really good event, with a lot of interesting people and high-quality conferences. I hope we will meet again next year.

Arch. Adrian Cancer
Founder of Square One Studio, Romania

I am honored to participate at this conference. It is really impressive and well organized. Until now, I've heard interesting facts and I am looking forward to seeing what the other speakers have to say. It's extraordinary and I wish there would be more events like this for us to have the chance to meet more often.

Eng. Alexandra Stoica
Executive Director, DAS ENGINEERING GRUP,
Romania

I would like to thank ABplus Events for the way they organized this conference. I had the pleasure and joy to discover that we develop from year to year. Besides the practical presentation of installations, this year we could also see presentations on the certification of green systems, innovative solutions from equipment suppliers, innovative Daikin solutions for increasing energy efficiency and reducing energy consumption, beautiful projects as Enzo Ferrari. Overall I must say that I have the confidence that we grow from year to year, which is pleasing and appropriate for this type of conferences.

Arch. Hagy Belzberg Faia
Principal Hagy Belzberg Architects, U.S.,
Special Guest GIS International Expo
Conference 2015

The series of GIS events was extraordinary, with an incredible number of very very interesting people, architects, interior designers. The event has allowed me to meet new people and has offered me the opportunity to meet people that I normally wouldn't have had the chance to meet and network with, this is what I think it is really important.

**Acad. Prof. Dr. Eng.d.h.c. Liviu Dumitrescu,
President of AIIR, Chairman of the Expo
Conference CONTRACTOR Installation 2015**

As far as the Contractor conference is concerned, I can say that it was even better than the one from last year due to the well organised presentations from the program and the higher number of participants which is in a constant increase from year to year. All in all, the event was a success and I want to assure our partners ABplus Events of the whole support of AIIR in the future.

**Dominique Lancrenon
President of the European Council of Urban
Planners**

I understood at the CONTRACTOR how important is to demonstrate professional ethics in a time where politicians seem to be busy with their internal discussions.

**Duccio Astaldi
President of European International
Contractors**

Expo Conference CONTRACTOR 2013 offered a great opportunity for a better understanding of the strengths, weaknesses and needs of the construction market in Eastern Europe and Romania.

TESTIMONIALS

**Prof. Rainer Mahlamäki
Partner Lahdelma & Mahlamäki Architects,
Special Guest GIS Bucharest 2016 edition**

First of all I have to say applause once again, few times for the opportunity to be in Romania, at GIS conference. I feel that a conference like this is very important, because the idea is to get together the whole building sector, not only designers, planners, architects, interior architects, but also construction companies, manufacturers and so on. I think this is the way how to really improve our cooperation in the bulding sector, but also that the people who are orientating on more technical issues they can also support our way to take and to approach what means construction and what means architects.

**ARCH. Jan GEYSEN
Vice President the Council of Interior
Architects, Founder PUUR interieurarchitecten,
Guest of Honour GIS Bucharest 2016
conference**

Thanks for organizing these big successful event. I am really positive about everything, the contacts I made, the organization, the event, the city, everything. I really liked the conference. It was really interesting to see also presentations from the other countries, like Bulgaria for example, but I am really surprised that in Romania there is so much attention for interior architcture, for which I am very enthusiastic.

**Fernando Branco
President of the European Council of Civil
Engineers**

CONTRACTOR is an important communication experience among manufacturers. We must build on the principle of continuous investing in quality and innovation in order to become better and to be different.
